At Genuine Support Services Australia we embrace the unique qualities of every individual, build on skills and independence, create strong connections within the community and assist people on the NDIS living with Disability to grow, unlock their potential and achieve their goals.

We value the importance of choice and control and dignity of risk in everyday life. We believe that people living with disability, have the right to receive support to meet their goals and everyday needs, as well as participate equally as part of our society and community.

We value and respect diversity in culture and the individuality in each person we encounter.

We treat every individual with sensitivity, courtesy and respect, including protecting the confidentiality of all our participants.

We value the importance of building strong relationships with our participants through open and honest communication.

## **OUR SERVICES**
